### **III. Goal Allocation Methodology**

#### **A. Total Goal, By Major Tax Type (Table 1)**

CY 2006 total goal by major tax type was based on the National Government Revenue Program furnished by the Department of Finance dated January 9, 2006.

#### **B. Monthly Collection Goal, by Major Tax Type (Table 2)**

CY 2006 monthly goal allocation for Excise Taxes was provided by the Large Taxpayers Service.

For the remaining tax types, CY 2006 monthly goal allocation was based on the refined monthly collection (Net of Special Taxes) of CY 2005. Thus, for a particular month  $M$  and tax type  $N$ , the total goal  $G_{MN}$  is computed as follows:

$$G_{MN} = D_{MN} \times \text{₱ } 675,353 \text{ M}$$

where  $D_{MN}$  = percent share in CY 2005 collection of Tax Type  $N$   
for month  $M$

The goal allocation process was divided into two parts, where Part I is the allocation for the existing measures and Part II is for the new VAT law (RA 9337).

#### **PART I. Existing Measures (Table 3)**

##### **1. Allocation of P 622,748 M**

The goal on existing measures by implementing offices amounting to P 622,748 million was computed as follows:

- a) Ave. GRDP(current, net of agriculture) growth rate for CY 2004-2003 was applied to Regions' Refined CY 2005 Estimated Collection ( Annex A)

Estimated CY 2005 collection was refined by deducting the following collections:

1. Tax Remittance Advices (TRAs) of NGAs;
2. Withholding taxes of GOCCs and LGUs;
3. Special taxes (i.e., taxes on T-Bills, Travel Tax, Stock Transactions Tax and Excise Taxes);
4. Non-recurring transactions;
5. Transferred taxpayers;

- b)  $\epsilon$  = adjustment to maintain the total goal set by DOF

The adjustment figure ( $\epsilon$ ) was allocated to the implementing offices using the ratio and proportion technique based on the CY 2005 estimated collection (net of special taxes, non-recurring transactions and transfer of taxpayers )

## **PART II. New Measures (RA 9337)**

Goal allocation of R.A. 9337 by implementing office was computed using ratio and proportion technique taking into account the estimates submitted by the implementing offices and estimated actual collections from VAT, Corporate Income taxes, Banks/Financial Institutions from the 1209 reports provided by the Revenue Accounting Division. (Annex B)

### **C. Total Goal Allocation, By Major Tax Type and By Implementing Office**

The overall goal allocation was computed as follows:

$$\text{Overall Goal 2006} = \text{Refined CY 2005 Est. Coll.} + (\text{Refined CY 2005 Estimated Collection} \times \text{Estimated GRDP g.r.}) + \epsilon + \text{TRAs} + \text{GOCCs/LGUs} + \text{Special Taxes} + \text{R.A. 9337}$$

Aligned with the goals computed in items III.A, III B and III C above, the monthly goals by tax type were allocated by implementing office using the ratio and proportion technique where applicable.

### **D. Goal Allocation for Special Taxes**

The following taxes were allocated directly to the implementing offices concerned :

- a) Excise Taxes

Goal on Excise Taxes amounting to ₱ 66,489 M was allocated to the Large Taxpayers Service (LTS) while goal on mining and quarrying was allocated to all implementing offices.

**E. Assigned growth rates on TRAs of NGAs and Withholding Taxes of GOCCs/LGUs**

a) Tax Remittance Advice (TRA) of National Government Agencies (NGAs)

CY 2006 collection through TRAs of NGAs was assumed to be equal (or 0% growth) to CY 2005 collection across all implementing offices.

b) Withholding Taxes of GOCCs and LGUs

A five percent (5%) growth rate was assumed on the withholding taxes of GOCCs and LGUs for CY 2006 across all implementing offices.
