SUBJECT: BIR FRAMEWORK FOR INFORMATION SYSTEMS

TO : All Internal Revenue Officials, Employees, and Others Concerned

This is to circularize the BIR Framework for Information Systems which was designed relative to the Information Systems Strategic Plan (ISSP) to identify the critical Information Computer Technology (ICT) projects that will support and address the Bureau's strategic thrusts and programs. Said Framework evolves as current developments arise in response to the new policy directives and priorities of the Commissioner.

The diagram on Integrated Tax Systems (ITS) as shown in Annex A consists of various systems that support the Bureau in revenue collection and enhancing taxpayer service. It identifies the five (5) major operational thrusts of the BIR namely: a) Registration; b) Audit and Enforcement; c) Taxpayer Assistance; d) Declaration and e) Payment. The Internal Administration Systems Diagram (Annex B) illustrates the other related information services that would assist in the improvement and enhancement of administration processes. Both frameworks are supported by technical assistance and services.

All concerned are hereby enjoined to be guided accordingly and to give this Circular as wide a publicity as possible.
